Rubber Research Scheme (Ceylon)

Quarterly Circulars.

CLASSIFIED LIST OF CONTENTS, 1924-1929.

Budding and Selection.

| | | |
|---|-----------------|---------------------|
| Budded rubber, Notes on | J. Mitchell | 1924 Part 1. p. 12. |
| Budding of rubber, from observations in Java and Malaya, Notes on | R. A. Taylor | 1924 Part 1. p. 8. |
| Budding of rubber in Ceylon | J. Mitchell | 1924 Part 2. p. 15. |
| Budding of rubber, The present position | F. A. Stockdale | 1926 Part 2. p. 2. |
| Budding of rubber on a Commercial Scale, The | R. A. Taylor | 1926 Part 2. p. 8. |
| Bud-grafting of rubber | C. E. A. Dias | 1928 Part 4. p. 6. |
| Demonstrations in budding | J. Mitchell | 1924 Part 4. p. 16. |
| Diseases of young rubber buddings, A preliminary note on | R. K. S. Murray | 1929 Part 3. p. 6. |
| Rubber budding and selection | Executive Comm. | 1929 Part 3. p. 1. |
| Selection in Hevea | R. A. Taylor | 1924 Part 3. p. 5. |
| Stocks on scions in budded rubber, Possible effect of | R. A. Taylor | 1924 Part 4. p. 5. |
| Stock and scion in budded plants, The relationship between | R. A. Taylor | 1928 Part 4. p. 8. |

Cover Crops.

| | | |
|---|-----------------|--------------------|
| Cover crops in relation to root diseases of rubber | R. K. S. Murray | 1928 Part 3. p. 1. |
| Rust on Dolichos Hosei (Vigna), Preliminary note on | R. K. S. Murray | 1928 Part 3. p. 8. |

Diseases.

| | | |
|------------------------------------|-----------------|--------------------|
| Pests and Diseases of rubber 1929. | R. K. S. Murray | 1929 Part 4. p. 5. |
|------------------------------------|-----------------|--------------------|

Brown Bast.

| | | |
|---|--------------|--------------------|
| Brown Bast | R. A. Taylor | 1924 Part 1. p. 5. |
| Brown Bast Census, A | R. A. Taylor | 1925 Part 3. p. 7. |
| Brown Bast and its treatment | J. Mitchell | 1927 Part 4. p. 1. |
| Brown Bast Treatment, Note on | J. Mitchell | 1929 Part 2. p. 4. |
| Scraped bark surfaces, Note on the renewal of | J. Mitchell | 1928 Part 4. p. 1. |

Leaf Diseases.

| | | |
|---|------------------------|---------------------|
| Leaf Disease of rubber, The present position with regard to | R. H. Stoughton-Harris | 1925 Part 2. p. 12. |
| Occurrence and Significance of Oidium leaf disease in Ceylon, The | R. K. S. Murray | 1929 Part 2. p. 7. |
| Oidium leaf-fall of rubber | R. H. Stoughton-Harris | 1925 Part 1. p. 8. |

Leaf Diseases—(Contd.)

- | | | | |
|--|------------------------|--------------|--------|
| Oidium leaf-disease of Hevea | M. Park | 1927 Part 3. | p. 1. |
| Secondary leaf-fall in S. India, Notes on | J. Mitchell | 1926 Part 3. | p. 12. |
| Spraying of rubber trees as a means of control of Secondary leaf-fall, The | R. H. Stoughton-Harris | 1926 Part 1. | p. 18. |
| Spraying of rubber in Ceylon, Notes on | R. H. Stoughton-Harris | 1926 Part 2. | p. 14. |
| Visit to South India, Report on a | R. H. Stoughton-Harris | 1926 Part 2. | p. 16. |

Root and Stem Diseases.

- | | | | |
|--|------------------------|--------------|--------|
| Bark rot, Natural immunity of rubber trees to | R. H. Stoughton-Harris | 1927 Part 1. | p. 7. |
| Cover crops in relation to root diseases of rubber | R. K. S. Murray | 1928 Part 3. | p. 1. |
| Ustilina Collar rot, A preliminary report on a method of treatment for | R. H. Stoughton-Harris | 1925 Part 4. | p. 10. |
| Young rubber buddings, A preliminary note on a disease of | R. K. S. Murray | 1929 Part 3. | p. 6. |

Manuring.

- | | | | |
|---|------------------------|--------------|--------|
| Manuring experiment suitable for estate practice, Suggestions for a | R. A. Taylor | 1925 Part 2. | p. 9. |
| Manuring on the foliage cover in rubber, The effect of | R. H. Stoughton-Harris | 1925 Part 3. | p. 11. |
| Nitrate of soda, The effect on yield of manuring rubber with | R. H. Stoughton-Harris | 1927 Part 2. | p. 8. |

Miscellaneous.

- | | | | |
|---|------------------------|--------------|--------|
| Flood water to repair the damage previously caused by it, Employment of | R. A. Taylor | 1926 Part 4. | p. 3. |
| Foliage on different blocks of trees, An indirect method of measuring | R. A. Taylor | 1929 Part 2. | p. 5. |
| Imperial Agricultural Conference, The | R. A. Taylor | 1928 Part 2. | p. 1. |
| Nitrogen content of fallen leaves | R. A. Taylor | 1925 Part 1. | p. 7. |
| Nitrogen lost as a result of Secondary leaf-fall, Observations on the amount of | R. A. Taylor | 1925 Part 2. | p. 7. |
| Phytophthora Faberi in artificial culture, The influence of the reaction and the concentration of the medium on the growth of | R. H. Stoughton-Harris | 1926 Part 3. | p. 5. |
| Pollarding rubber trees, Effect of | R. H. Stoughton-Harris | 1926 Part 3. | p. 2. |
| Rubber factories and Research Laboratories in England, Visits to some | T. E. H. O'Brien | 1927 Part 1. | p. 1. |
| Vulcanisation testing of rubber, Explanatory notes on | T. E. H. O'Brien | 1927 Part 2. | p. 1. |
| Yield and some of the vegetative characters in Hevea, The relationship between | R. A. Taylor | 1925 Part 4. | p. 5. |
| Yield and rainfall, A relationship between | R. A. Taylor | 1926 Part 1. | p. 11. |

Preparation of Raw Rubber.

| | |
|--|-------------------------------------|
| Airdrying sheds, Ventilation of | T. E. H. O'Brien 1927 Part 3. p. 7. |
| Aluminium coagulating pans | T. E. H. O'Brien 1927 Part 3. p. 6. |
| Blanket crepe and thin crepe | T. E. H. O'Brien 1925 Part 1. p. 3. |
| Blanket crepe and thin crepe | T. E. H. O'Brien 1925 Part 4. p. 3. |
| Blanket crepe, Notes on streakiness in | T. E. H. O'Brien 1929 Part 4. p. 1. |
| Disinfectants, Effect on scrap rubber | T. E. H. O'Brien 1927 Part 3. p. 5. |
| Formic acid as a coagulant | T. E. H. O'Brien 1925 Part 2. p. 4. |
| Hydrometres for latex, Glass | T. E. H. O'Brien 1924 Part 1. p. 3. |
| Hydrometers for latex, Glass | T. E. H. O'Brien 1924 Part 2. p. 3. |
| Hydrometers for latex, Tests with glass | T. E. H. O'Brien 1924 Part 4. p. 4. |
| Hydrometers for latex, Glass | T. E. H. O'Brien 1926 Part 1. p. 2. |
| Hydrometers for formic acid | T. E. H. O'Brien 1926 Part 1. p. 8. |
| Impurities in rubber | T. E. H. O'Brien 1925 Part 1. p. 5. |
| Latex, Bulking of | T. E. H. O'Brien 1927 Part 3. p. 9. |
| Milky serum | T. E. H. O'Brien 1925 Part 2. p. 3. |
| Packing of rubber, Notes on | J. Mitchell 1924 Part 1. p. 13. |
| Packing of rubber, Further notes on | J. Mitchell 1924 Part 2. p. 11. |
| Para nitrophenol as a preventive of mould in sheet rubber | T. E. H. O'Brien 1925 Part 3. p. 3. |
| Para nitrophenol, Notes on | T. E. H. O'Brien 1926 Part 1. p. 9. |
| Para nitrophenol, Methods of using | T. E. H. O'Brien 1927 Part 3. p. 6. |
| Para nitrophenol for prevention of fungal spots in crepe. | T. E. H. O'Brien 1928 Part 1. p. 7. |
| Preserved latex, Containers for | T. E. H. O'Brien 1924 Part 1. p. 4. |
| Smoking sheet rubber | T. E. H. O'Brien 1924 Part 1. p. 3. |
| Smoking of rubber, Experiments on | T. E. H. O'Brien 1924 Part 3. p. 3. |
| Smoking of rubber, Experiments on | T. E. H. O'Brien 1924 Part 4. p. 3. |
| Sodium silicofluoride as a coagulant | T. E. H. O'Brien 1928 Part 1. p. 1. |
| Spotting of crepe rubber, Notes on | J. Mitchell 1924 Part 4. p. 13. |
| Tacky spots in crepe | T. E. H. O'Brien 1927 Part 3. p. 5. |

Reports From The Imperial Institute.

| | |
|--|---------------------|
| Ageing properties of rubber prepared from latex preserved with Ammonia, The | 1925 Part 1. p. 12. |
| Ageing properties of rubber extracted with dilute ammonia, The | 1925 Part 4. p. 16. |
| Artificial ageing tests on plantation rubber | 1925 Part 4. p. 14. |
| Bordeaux mixture, The effect on the properties of plantation rubber | 1926 Part 4. p. 13. |
| Bordeaux mixture, Possible contami- nation of latex with copper com- pounds as a result of spraying with | 1927 Part 2. p. 11. |
| Bordeaux mixture, The possibility of latex becoming contaminated as a result of spraying with | 1929 Part 1. p. 1. |
| Hanging rubber in the factory after smoking, The effect on the development of mould of | 1928 Part 2. p. 15. |

Reports from The Imperial Institute:—(Contd.)

| | |
|---|---------------------|
| Latex preserved with caustic soda, The effect of adding glue to | 1926 Part 3. p. 7. |
| Organic accelerators of vulcanisation, The effect on the variability of rubber of | 1929 Part 1. p. 8. |
| Plantation rubber, Samples of | 1927 Part 1. p. 10. |
| Plasticity of raw rubber | 1925 Part 3. p. 17. |
| Plasticity, The effect of different methods of drying sheet rubber on | 1926 Part 3. p. 9. |
| Plasticity, vulcanising and ageing properties of blanket crepe, The effect of P. N. P. on | 1926 Part 4. p. 10. |
| Plasticity, vulcanising and mechanical properties of rubber, The effect of different dilutions of latex and strengths of coagulant on the | 1928 Part 2. p. 11. |
| Plasticity, Report on causes of variation in | 1928 Part 3. p. 5. |
| Plasticity of rubber, The determination of | 1929 Part 1. p. 3. |
| Plasticity of crepe, The effect of diluting latex on | 1929 Part 1. p. 6. |
| Plasticity of smoked sheet, The effect of keeping coagulum in serum on the | 1929 Part 2. p. 1. |
| Preservation of latex with Ammonia, Nature of the deposit | 1924 Part 2. p. 6. |
| Revertex, Report on | 1927 Part 4. p. 3. |
| Rubber prepared with sodium sulphite | 1924 Part 2. p. 7. |
| Rubber from high-yielding trees at Heneratgoda | 1928 Part 4. p. 2. |
| Smoking sheet with uncombusted smoke, The effect of | 1928 Part 2. p. 17. |
| Sodium silicofluoride, Reports (3) on rubber prepared with | 1924 Part 4. p. 8. |
| Standardisation of methods of testing | 1928 Part 2. p. 19. |
| Vulcanising and mechanical properties of rubber, The effect of the addition of Ammonia to the latex on the | 1924 Part 2. p. 9. |
| Wet rubbers | 1925 Part 4. p. 18. |

Summaries and Reprints.

| | |
|---|---------------------|
| Bud-wood, Some remarks concerning storing and packing of (J. G. J. A. Maas, Archief March 1926) | 1926 Part 4. p. 9. |
| Mildew disease in Java, The (C. A. Reydon Archief, October 1927) | 1928 Part 1. p. 9. |
| Pollarding of trees for bud-wood (Dept. of Agriculture Communiqué) | 1926 Part 4. p. 19. |
| Roo disease of Hevea (Xylaria Thwaitesii) (Dept. of Agriculture Year Book 1923) | 1924 Part 3. p. 10. |
